Whose hands touched it before yours?

IF a germ could talk, it would tell you that nothing pleases him more than to get a free ride from someone's soiled hands to some other person's mouth," says the United States Public Health Service Broadcast, No. 96.

Think of the many times each day your hands touch things that others may have left germ-laden

Things you can't help but touch. Money, car-straps, door knobs, banisters, packages, public telephones — all these, and many more, may transmit germs to the hands.

That's why health authorities say hands are among the greatest carriers of sickness. See below, list of 27 germ diseases hands may spread.

You wash your hands, of course. But "even if your hands look clean, they may be covered with germs," says the Metropolitan Life Insurance Company.

For greater safety—wash hands at all times with the purifying toilet soap that removes germs, as well as dirt.

Benefits the skin, too

There isn't a better toilet soap made than Lifebuoy. Millions have discovered this for themselves. They prefer it for hands, for bath,

poo, for every toilet purpose.

Germs, as well as dirt, removed from hands by this purifying toilet and bath soap

And best of all, Lifebuoy helps safeguard health. Its antiseptic lather removes germs, as well as dirt.

Greater protection—its hygienic

scent tells you why

Lifebuoy is so different from other toilet and bath soaps that even its scent is different.

Not a perfume, but a clean, pleasantly hygi-enic scent which proves Lifebuoy gives greater protection. Even before you've finished your first cake, you'll learn to love this cleanest of all soap scents, which quickly evaporates after rinsing.

Without its antiseptic, Lifebuoy would still be a wonderful toilet soap—but it wouldn't give you the same measure of protection.

Like millions of others, once you form the Lifebuoy habit, you'll wonder how any other soap ever satisfied you.

Added safety—free

You wash and bathe with some soap anyway. So why not use Lifebuoy, which costs no more—probably less—than the soap you are now using? The protection it gives you is actually free!

You can get Lifebuoy wherever soap is sold. You will know it by the red box and the cake—orange-red, the color of its pure palm-fruit

Germ Diseases

They revel in its abundant, penetrating lather that removes dirt in a twinkling, that makes the skin delightfully soft and smooth, that destroys all perspiration odors instantly—and keeps them away all day.

CRISP-ASWELL BILLS FOR M'NARY-HAUGEN

Detroit, Mich., Jan. 11.—[Special.]—
Hack in 1903 the new born Ford Motor company represented \$23,000 in cash, \$21,000 in promissory notes, some machinery and the patents of a young man who had an idea that he could build an automobile that would go.

Today, in the biggest tax suit in the history of the internal revenue bureau, the federal government began its attempt to get a slice of the money that came out of that Ford Motor company of twenty-three years ago and the slice the government is after is in round numbers \$31,000,000.

The government has already collect.

Minority stock holders who sold out to Henry Ford and his son, Edsel, in 1913. It now wants half again as much.

Call Defendants' Coursel.

Which is why, promptly at 10 o'clock this morning, three judges of the United States Court of Tax Appeals, garbed in dignified cutaways, filed solemnly into a courtroom that is usually a ballroom in Detroit's Statler hotel and Secretary R. C. Tracy summoned counsel for United States Senator James Coursens, his sister, Mrs. Rosetta V. Hauss; Horzet H. Rackham, John W. Anderson, Philip David, and Paul Gray, and for the estates of John P. and Horace E. Dodge to file their appearances in this mammoth suit against the commissioner of internal revenue.

The story that began today is the story of one of the epics of big business of all time. It is the fable of the poor boy, of more than one poor boy, grown millionaire by virtue of a Midas touch and eighteen hours a day. It is also the story—one of them—of bureau-cracy in a republic. And it is also the story, or perhaps the esquel to the story, or perhaps the esquel to the story, of the strugie between two millionaires. Coursens and Andrew Mellon, secretary of the trassury.

Albert Strelow paid cash for 50 shares, Vernon C. Fry paid \$3,000 cash and a \$2,000 note for 50 shares, and Charles H. Bennett gave a note for 50 shares and Charles Woodall a note for ten shares.

Majormson Sells to Ford.

Malcomson Sells to Ford.

Ford bought out Malcomson in May 1908. Malcomson wanted to build his own car, the Aerocar. Two years later the Aerocar went on the rocks, Gray died in 1906 and his stock went to his children. In 1907 Strelow sold out to Couzens for \$25,000, he put his money in a western gold mine and a few

To make a long story short, the minority stockholders agreed to sell out, but only on condition that they find out first how much of their profits would be taken away by the government in taxes.

Investigate Ford Income.

Daniel C. Roper was at that time commissioner of theinternal revenue bureau. At the request of Ford's agents he sent P. S. Tolbert, acting deputy commissioners, and four accountants, to appraise the Ford company and ascertain what its value was, and what its shares were worth on March 1, 1915, when the income tax law went into

divided surplus."

Ford wanted to use the money for the River Rouge development.

The Dodges wanted some of it split up in dividends. The Supreme court finally decided, in February, 1919, that \$13,000,000 of this sum was to be divided. And in the meantime James Couzens, as he said on several occasions, was getting disgusted with Ford's utterances on pacifism, unperparedness, and the aliled loans.

The minority stockholders wanted to get out.

"On March 5, 1919." Mr. Davies stresses each word, "Mr. Ford, in an interview in Los Angeles, said that the and the other stockholders were engaged in a violent disagreement. He said that if he could not get rid of the stockholders he would quit the company, build a new plant for him self, and put out a new car of his own."

To make a long story short, 'the minority stockholders agreed to sell minority stockhold

Mrs. Alice Gray Kales was included for \$2,277,079.88. On advice of counsel she paid under protest and is now suing separately to recover that sum. The way the government had doped it out was this: as it came out in Mr. Davis' statement. They had taken to be used in computing profit or loss from sale.

Tolbert did some investigating and some arithmetic. The Ford company in 1912, he found, earned \$14,000,000.

In the first two months of 1913, it earned \$4,000,000, which would give it a yearly total of \$24,000 000. He added the two sums, divided by two, and got 19,000,000, which he called a fair annual return as of March 1. 1913.

Capitalized on the basis of 10 per cent, the Ford Motor company was suing separately to recover that sum. The way the government had doped the two sums of the ford two was this: as it came out in Mr. Davis' statement. They had taken the four years' earnings before 1913, added in 1913 on the basis of the first two months earnings, divided by five and so 19,000,000, which he called a fair annual return as of March 1. 1913.

FIRST PRINCIPLES IN

TRACTION.

The city council's transportation committee now has a number of grujeous before it for a settlement of the street car' problem. Two of the projects have already been drafted as ordinances. The representatives of the city and of the street car companies have come to an agreement upon all but a few clauses of a terminable franchise ordinance. The points of difference are not impossible of adjustment. The danger is that these minor differences of opinion and interest may distract attention from the basic principles which should underlie any traction settlement. The should underlie any traction settlement. The terminable franchise ordinance is merely one of a number of proposed settlements. It would be unsecount of it, and the employers pay fortunate if at this time the details of one ordinance is merely one of it, and the employers pay fortunate if at this time the details of one ordinance in the interval of it, and the employers pay five million dollars a year to their employers.

RE-ELECT THE SITTING JUDGES.

Prospects of a reflection of all judges now sitting frequently forces the country into a lot of others. First the assumption is presented that in natural order Central America and the Caribbean islands contain an idyllic society of simple, idealistic peoples into whose lives the destructive and exploiting Yankee enters. From then on the liberal view finds a brunette Evangeline swinging from every tree and Acadia going up in smoke. Richard? The inspiring story of Clarence has brought a ray of hope to another whose jokes don't seem to get across. My heart almost stopped, however, when I read that your hero was the president of six transcontinental railroads, because I know that the Sherman act prohibits anything like that, and since then I have been driven to despair by the gnawing suspicion that your story may be somewhat exaggerated.

Please end the awful suspense by verifying the story and telling me that there is hope, so that I may quit school, throw away my set of Haldeman-Julius "University in Print." divorce my present wife, and buy one of those—what did you say it's called, and, by the way, where can a fellow buy one of them?

RULES POUR IN

Bar Aims at Relieving Clogged Calendars.

Urges Life Jobs for 6 Judges.

From a well-known criminal lawyer, who preferred to remain unnamed, came the novel suggestion that the six Criminal court judges should be elected for life in order that no political influences might reach them in their decisions. Such a plan would have to be made legal through the state legislature, however, and is not within the jurisdiction of the judges who are drafting the new rules.

"I have been studying the court rules problem for years," said Attorney Irwin. "The judges face a huge task in revising the rules, We of the Bar association committee are proceeding on the principle that a delay of justice is a denial of justice. Urges Life Jobs for 6 Judges.

New York Plan Explained.

New York Plan Explained.

"The clogged calendar is the greatest problem to be solved. We might adopt the New York system, whereby, when either complainant or defendant wish a trial of a case when it is reached, the case is placed on a special list and must be tried when its turn comes. No continuances may be tranted in such a situation.

"Rules must be passed providing for greater decorum among lawyers in court. The federal courts have dignity and there is no reason why our state courts should not. We are studying the court rules of all cities in the country in order to draw up a model set of regulations.

Raps Many-Case Lawyers.

"We also want to get after the three or four lawyers in this county who want to try all the cases there are. They keep hundreds of cases on the calendars, knowing that at the most they can try but a case a week."

Under the present system, Attorney Irwin pointed out. Criminal court judges often complete their work in the forenoon and are idle at the afternoon sessions. Some method of providing work for the judges during these idle sessions should result from the study being made by the bench and bar, he declared.

"This idleness is not the fault of the judges but of the system," he said. "With all our judges working full time every day, the thousands of cases pending will soon be cleared up."

Your old Packard is a good car, but-

You want a new model now. Mighty proud when you drove it home a few years ago. Still proud. But folks all around are getting new 1927 Packards—and Cadillacs and Marmons, and a score of other excellent cars.

New designs, new improvements - many of them radical - all of them to make for more comfort, more character, more endurance, more power, more beauty!

Same way with a Victrola!

Same way with your Victrola. You want a new model. Of course, just as the old car is still going, the old Victrola is still playing for you. But the new Orthophonic is as much different from the old Victrola as the 1927 Packard is different from the good care of years ago—before balloon tires, before complete riding comfort, before the graceful beauty of 1927 had been perfected.

Come in today for a comparative test. - Allowance made on your old Victrola- The moment you hear the marvelous new Orthophonic, you will want to change.

names of people—that is if you want to meet them again pleasantly. The brand

name serves this purpose for you-when you want that particular food again you

ask for it by name, certain that the quality will be as before.

Sometimes, for example, you may want pears packed in a sweet, thick syrup for dessert, another time you want them less sweet for salad or breakfast fruit. One day you will need the small fancy pes for a special occasion, another day the larger, more substantial pea will be better for your need. By the brand name you can get the particular kind you want.

Canners and packers are proud of the goods they put up, so that the brand name stands for them as a mark of superiority an distinction. The best material goes into the package, so the name is a guarantee of quality.

So learn to shop by brand names. This does not mean not to try new brands—you may find something that will suit you even better. Especially use new goods that are put out by a packer whose products you have found satisfactory.

All foods put up by reputable companies are good. Watch to see what old and new products are on the market. Experiment with them!

Made for You!

If you are a motorist who appreciates a smooth running car—Iso-Vis was made for you!

Iso-Vis is a motor oil that is new—and different. The Standard Oil Company (Indiana) developed it to meet the new theory of scientific lubrication—solving the greatest of all lubrication problems —dilution in the crank-case.

You may not have much technical knowledge of dilution, but you probably have paid for it in money and in worry! Thin oil—engine unprotected—repair bills! It's an old story!

The Standard Oil Company (Indiana) has solved the problem of dilution by developing Iso-Vis. This remarkable new motor oil does not thin out as other oils do It protects the engine from start to finish, and it gives you the smoothest motoring—even in winter weather—that you have ever enjoyed. In extremely cold weather, Iso-Vis "Light" is recommended.

Iso-Vis costs a little more per quart but it decreases the cost of lubrication and subtracts lubricating troubles. Try it!

Flonzaleys' Musical Doings Convince Him of It.

A BY ELMER DOUGLASS.

Last evening, the Fionzaley String quartet and Ernest Hutcheson, planist, from New York, through W-G-N, S to 9. In this instance the lesser known name Hutcheson can be joined to the better known Fionzaleys without thought of artistic loss to the latter. Mr. Hutcheson's style is so near akin to the Fionzaleys' that his contribution added to rather than detracted from the charm of the recital.

In the concert world the name Fionzaley means the last word in musical expression. It is now seen that the quartet is not less notable over the radio.

The Flonzaleys introduced themselves with two movements from Dvorak's "American Quartet," introducing their matchlessly smooth, lovely, scintillating tone, their one-man-masterorgan-played impeccable technique. Mr. Hutcheson followed with a waltz and a rocturne by Chopin, played with rhythmic swing, marvelous expression, and a never failing purity, clarity, and pearliness of touch that was marvelous. I fear I have reached an anti-climax, for the real climax was Schumann's familiar and of all things lovely Quintette in E flat major, Scherzo and Finale, with Mr. Hutcheson taking the sole part. If you didn't hear this, it's now too late, and words here would

Keep In Trim!

Good Elimination Is Essential to Good Health.

THE eternal grind of modern life imposes many strains upon our bodily mechanism. Our eliminative organs, particularly, are apt to become sluggish under the unnatural burdens thrown upon them and fall behind in keeping the system free from possonous waste.

The kidneys are the blood filters. If they fail to fully perform their functions, body poisons are left in the blood, and one is apt to feel languid, tired and achy.

A dull, nagging backache is sometimes a symptom, with drowsy headaches and dizzy spells. That the kidneys are not functioning perfectly is often shown by burning or scanty passage of secretions.

The value of a stimulant diuretic to the kidneys in these conditions is being recognized by more and more people. Doan's Pills have been on the market for more than forty years and have earned a nationwide reputation. Users everywhere endorse Doan's. Ask your maintenant.

DURITY is what you look for in distilled water. And purity is what you get when you specify Neptune. Chicago Industries know this—that is why 95% of them rely on Neptune! Neptune is a guaranteed distilled water—rendered absolutely pure by the finest method of distillation known.

To doubly protect this vital purity, every Neptune gallon bottle is extra-scaled with a red viscose cap. When you break this scal you know you are the first to open that bottle since it left our plant—its goodness is intact. Keeping step with the march of science, Neptune is now osonated—a process of electric aeration that gives it life and vigor and assures the highest results whenever used.

GEORGES MAKES

RING COMEBACK Rockne in San Francisco;

Starts Home This Week-End

San Francisco, Cal., Jan. 11.—(P)—
Knute Rockne, football coach of Notre
Dame university, arrived here today from Honolulu. He will leave for home Friday or Saturday.

PARIS, Jan. 11.—(P)—Georges Carpentier, French heavyweight puglist, came back from fistic retirement to night to fight an exhibition bout with the American, Jack Walker, for the benefit of the Association of War Maimed. Carpentier delighted the spectators with a lively encounter, but since no decision was rendered the winner must remain anonymous.

That this fight may not go the limit is indicated by the wagering in fistic headquarters. Even money is being bet that the match will not last ten rounds, and the same odds prevail when the winner is mentioned. The first fighter who connects with a solid punch probably will be the winner.

Callahan and Langford each will box at least five rounds this afternoon and both will go on the road this morning. Tomorrow's work will be devoted to just enough gymnasium exercise to insure plenty of riding should a thaw spoil Chicaplentiful supply of snow.

SECURITY OF ISSUE

A direct closed first mortgage on the leasehold on the land fronting 153 feet 4¾ inches on Jackson Boulevard and 99 feet 9½ inches on Franklin Street, Chicago, and the twelve-story; steel frame, fireproof building. The lease runs 198 years from 1926. The building is 100 per cent rented.

VALUATION APPRAISALS By Holabird & Roche, Architects, of Chicago

By William H. Babcock & Sons, Appraisers, of Chicago
Building and Leasehold.....\$1,587,600.00

On the basis of the lower appraisal this issue is a 56.2% loan; on the higher appraisal a 53.5% loan. **EARNINGS**

Accounts audited by Arthur Young & Co., Certified Public Accountants of Chicago

Based on leases now in force and the average cost of operation over the past five years, plus taxes paid in 1926 and ground rent, but before depreciation and Federal taxes, the net earnings of the building for the year ending April 30, 1927 amount to \$109,366.50, or 2.06 times the annual interest charge.

LOCATION

The Brooks Building is located a half block west of the financial district, fronting on Jackson Boulevard, Chicago's finest east and west thoroughfare,

at the corner of Franklin. Recent improvements, coupled with the completion of the Union Depot, have made this boulevard one of the most important of the Loop "feeders," and its rapid high class development makes certain that it will hold its pre-eminent position. Within a block and a half of the Brooks Building are the Insurance Exchange Building, the Federal Reserve Bank and the Illinois Merchants Trust Building. Transportation comprises the best in Chicago.

BUILDING

The Brooks Building is of steel skeleton, fireproof construction and comprises twelve stories, one full and one half basement. It contains 2,848,120 cubic feet, and 153,311 square feet of net rentable area for stores and offices, rented to capacity.

SAFEGUARDS

The protections of this issue are based upon years of experience in underwriting first mortgage bond issues. An independent corporate trustee is employed. Independent appraisals of valuations and earnings were obtained from reliable sources, and an audit of earnings and expenses was made by one of the best known certified public accountants.

Title is insured by the Chicago Title & Trust Company. Ample fire insurance is carried. Monthly deposits in advance are made for payment of interest maturing bonds real extent to the contract of the co terest, maturing bonds, real estate taxes and ground rent. All legal matters were passed upon not only by the law department of the bankers but also by independent attorneys qualified by long experience in the handling of mortgage financing.

These bonds, combining liberal yield and a high degree of safety, bear our unqualified recommendation as securities meeting every requirement of the most conservative investor.

Prices from \$100.00 to \$100.40, depending on maturity, to yield from 6.05 to 6.25 per cent.

First-Trust Joint Stock Land Bank of Dallas

5% Farm Loan Bonds

Dated January 1, 1927

Optional January 1, 1937

Due January 1, 1957

Coupon Bonds \$1,000 and \$10,000 denominations fully registerable and interchangable. Principal and semi-annual interest, January 1st and July 1st, payable at First Trust and Savings Bank, Chicago, or the First National Bank, New York City. Redeemable at par and interest on January 1, 1937, or on any interest date thereafter.

Exempt from all Federal, State, Municipal and Local Taxes. (Excepting Inheritance and Similar Taxes)

These bonds are direct obligations of the First-Trust Joint Stock Land Bank of Dallas and are secured by deposit with the Registrar of the Farm Loan Bureau of the United States Treasury Department of approved first mortgages upon improved farms in the States of Oklahoma and Texas.

Of the loans actually made, 93.41% of the gross volume are secured by Texas mortgages and 6.59% by mortgages on lands in the most productive portion of Oklahoma.

The farm loans pledged equal approximately 39.25% of the appraised value of the farm lands and the insured permanent improvements thereon. The bonds are further protected by the equity of land values and also by the paid-in capital stock of the bank, which carries double liability.

Texas for a number of years has led all of the states of the Union in average crop production values. The state produces approximately 8% of the total crop value of the United States. The United States Department of Agriculture late estimates of 1926 major crop productions of Texas farms give a total value of \$606,604,000, of which the cotton crop is \$344,500,000.

Through the affiliation of the First-Trust Joint Stock Land Bank of Dallas with the First Trust and Savings Bank and the First National Bank of Chicago, its management is supervised by executive officers of these institutions, including the chairman and president of both banks.

Rebuilding the Loop January Investments

Chicago's Loop is being rebuilt. Continuously, a process of rejuvenation now replaces obsolescent buildings with modern skyscrapers. This process is a vital mark of Chicago's progress.

In January, Straus investors will have available three new Loop office building issues. The buildings securing these issues are all well under construction, in outstanding locations. They represent a response to definite rental demands.

By investing in these issues, Straus clients will assist immeasurably in the rebuilding of the Loop. Their funds will directly promote the progress of Chicago.

In every other progressive American city the same process of rejuvenation is taking place. Straus investors are assisting this process by diversified investment in the choicest real estate securities of the leading cities from coast to coast.

In January we are offering investors the largest and most completely diversified list of sound bonds in our history. A booklet that describes these will help you plan your January investments to good advantage. Ask for

Reichsbank Reduces

Its Rate of Discount BERLIN, Jan. 11.—(P)—The action of the Reichsbank today in reducing its rate of discount from six to five per cent caused a bull movement on the stock exchange, where it was regarded as a step in the direction of a return to prewar conditions. Fallure of the Reichsbank to lower the bank loan rate, which is seven per cent, caused some disappointment.

WALL STREET NOTES

The Argentine Republic has always been an agricultural and stock raising nation. This country has over 253,000,000 acres of arable land. In addition to its agricultural wealth are its great mineral resources.

Argentina exports vast quantities of wheat, oats, corn, and flax; also beef, mutton, lamb and other meats. Argentina produces more linseed (flax) than any country in the world. The west-ern province of Mendoza is notable for its exports of wine.

Flourishing foreign commerce, stable government, an adequate currency system, and great partially developed resources make Argentina a articularly attractive field for safe invest Its external loans have a very high inves rating throughout the world-

A TRIBUTE

Penn Mutual Life Insurance Co.

We take genuine satisfaction in the following telegram' recently received by us from one of the leading American life insurance companies, for which we have acted as Loan Correspondents for more than thirty years:

"We congratulate you upon closing the year with no delinquent interest on loans made in your territory. President Law joins in ex-tending to you the compliments of the season with best wishes for a prosperous New Year."

Such a message, referring to real estate loans aggregating many millions of dollars, sold by us to this old and conservative life insurance company, is striking evidence not only of the care we exercise, but of the high character of choice Chicago real estate as security for investments.

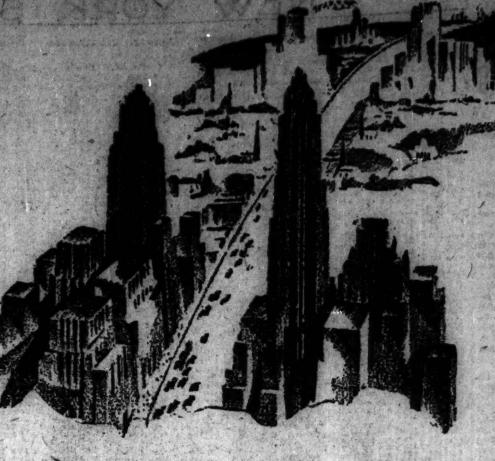

On our current list are a number of Chicago real estate mortgage bonds of first quality. Descriptive circulars will be sent on request.

"So I was sweet. Bungle is right. Another bonehead, to expose us both the way I did. Boneheads have their uses, though. Mine can't be all bone, or it wouldn't be so sore. What's that?"

Something hard and rough just above the tip of his ear came in contact with his exploring fingers. At first he thought it to be literally bone, but immediately discovered that it was metallic. At the risk of bleeding he called it off, then examined it as best he could in the dwindling light.

"Check. A bullet splashed off the rock. It flattened and got me on the rebound. I was barked, like a squirrel. Some shock. And you, my cave

"So I was, nearly. Just before I got keeled over. We will talk about that again, but next time when the show is over. Not between the acts."

"You can scarcely speak. I'll get some water."

His hand closed on her arm. "Not yet. I'll crawl over there when it rets good and dark. Now, what has happened to Gertrude? It looked to be plain sailing."

"Yes. They were in the pockets of that coat you have on."

"What did you do with them?"

"I hid them in a safe place, some distance away."

"Do you think that you could get them, after dark?"

"I might, but as things now stand, only at great risk."

"Could you find the spot?"

"I think so."

Think so.

Then get them, Bungle. O, get them, please. It's almost dark." She gan to tremble violently. "Come on. I'll go with you."

Bengal was silent. He would have said that he had already suffered his brit that day, but apparently not.

For here now was Carillon, still vibrant from her ecstacy of love and joy a finding that he still lived, now asking him, imploring him to risk that life sain, and at fearful risk, to bring her the gems that had been the cause of

That leaden feeling about his heart, now a symptom he recognized as Carillon's work and carried on by her, bore down again on Bengal. This time it had beyond despair the added weight of hopelessness. In reply to XYZ and a dozen other correspondents making the same queries: What causes superfluous halr; does cold cream cause it; are women's masculine tendencies to blame? I made a thorough investigation a short time ago among skin specialists. I advanced to them the cold cream theory and all the other popular ideas suggested to me, all of which were dismissed as having nothing to do with the excessive growth certain skins are susceptible to.

the excessive growth certain skins are susceptible to.

The truth is, the cause is still unknown. No one knows why one woman tends to show the characteristic and another does not. One of the physicans of the New York Skin and Cancer hospital said: "The cause is something still to be discovered, but cold cream does not cause it; neither does vaseline nor olive oil."

does vaseline nor olive oil."

The Washington University School of Medicine sponsored an investigation of the subject. They experimented with petroleum to watch its action on the growth of hair and found it does not stimulate the growth.

Those with dry skins are less trou-

bled than those with oily skins. Heredity plays a part in it. Where there is a tendency to it, it usually increases as the individual gets older and it often appears about middle life in

This yoke is set in at the waist line, both back and front and from it depends the fullness which makes the grace of the skirt, accented by a most uneven hem line. Cream chiffon fashions this charming dress, designed for afternoon wear at Palm Beach. It is patterned with large pink flowers and this color scheme is completed by a skirt border collar and tiny cuffs of blue georgette. Just below the shoulder full sleeves set on with rows of shirring are executed in plain chiffon of cream color.

Why Not Buy Your Car re

Near Your Home? Customers will tell you that they have found exceptional values in the cars bought from our Used Car Department. You will have the same experience whether you buy a car costing \$100 or \$3,000. And you can enjoy, too, the advan-tage of selecting your

automobile from a branch of this Used Car Department in your own neighborhood.
The Cadillac Used Car Pepartment has four mmunity branches:

1810 Ridge, Evanston. 5201 Broadway. 4114 Irving Park-blvd. 810 Madison, Oak Park. At any of these you will find the same splendid used car values as are

offered at 28d and Michigan. Let the Cadillac Used Car Department help you-now-to the satis-faction that can be yours with a good used car. Visit the nearest branch. Comfortable time payments are available. Your present car can be used to reduce the down payment on any

automobile costing over \$800

CONSIDER THESE VALUES FIRST

AUTONOBILES-GASOLINE

To buy a used car and obtain at once a good automobile a the greatest economy and most favorable terms means that the purchaser must consider Studebaker's selections first - because Studebaker dominates the used car field, consistently offers the mos outstanding bargains, and gives buyers the benefit of the Studebaker National Used

Car Pledge. We say this is an extraordinary value. Just check the equipment of this 4 door broughtam: Pine's winterfront, bumbers, beater trunk, spare tire, and others. The original finish and the upholstery are attractive and the running condition is very good. You need not be an expert to know this is a bargain de luxe at \$525.
